M. C. O. SHULTS, of Winterset, Iowa, inventor and manufacturer of Shultz's Safety Whitelore Compound, writes of Dr. Miles' Heart Cure. "Two years ago an attack of LaGrippe left me with a weak heart. I had run down in flesh to mere skin and bone. I could not sleep at night. My local physician prescribed Dr. Miles' Heart Cure and in a few days I was able to sleep well and the pains gradually lessened, and finally ceased. I reduced the dose, having gained fifteen pounds, and am now feeling better in every way than I have for years."

## STORM SUFFERERS

Secretary of War Appeals to Governors For Aid For Porto Rico.

## THE AWFUL DEVASTATION

Much Greater in the Island Than Was at First Supposed—Swift Steamers Provided to Carry the Relief to the Sufferers—All Donations to Be Admitted Free of Duty.

Washington, Aug. 15.—The secretary of war yesterday afternoon issued the following appeal to governors of states for aid for the storm sufferers in Porto Rico:

"Sir—I enclose herewith copies of two telegraphic dispatches received last evening from the governor general of Porto Rico, by which it appears that the devastation wrought by the recent hurricane in that island is even greater than was at first supposed. It is evident that a great multitude of people, rendered utterly destitute by this awful calamity, must be fed and cared for during a considerable period until they can have the opportunity to procure food for themselves. Enormous quantities of supplies of the kind indicated by the governor general must be procured.

The magnitude of the work to be accomplished leads this department to supplement the appeal already made to the mayors of the principal cities of the country by a more general appeal, and I beg you to ask the people of your state to contribute generously to the people of Porto Rico.

Swift steamers have been provided to leave the port of New York to carry the supplies directly to Porto Rico as rapidly as they can be collected.

Contributions should be either in supplies of the character indicated, or in money to order that the supplies can be purchased. The supplies should be sent to Colonel F. B. Jones, Army building, foot of White Hall street, New York city, in packages plainly marked 'Porto Rico relief,' and he should be consulted as to the time of shipment. Money should be sent to the National Bank of North America, New York city, which has been designated as depository for the relief fund. Very respectfully, ELIOT ROOPE, Secretary of War.

Acting Secretary of the Navy Allen yesterday wrote Secretary Root that the navy desired to co-operate in every way it could in rendering assistance to the storm-stricken people of Porto Rico, and tendering a warship to be placed at the disposal of the war department if it was desired to convey supplies to the island. The offer doubtless will be accepted, as every available means is being adopted to hurry along the great stock of supplies which is imperatively needed. Mr. Allen is in telegraphic communication with several naval stations with a view to having a ship ready as soon as the war department wants it.

## FREE OF DUTY

All Relief Supplies For Porto Rico Will Be Admitted.

Washington, Aug. 15.—By direction of the president all relief supplies sent to Porto Rico will be admitted to all ports of that island duty free.

The war department has received the following telegram from the New York and Porto Rico Steamship company and requests that this dispatch be published generally by papers throughout the United States:

"Steamer Evelyn of the New York and Porto Rico Steamship company, sailing from this port on Friday, Aug. 18, for Ponce direct, will take all relief supplies we have room for free of charge. The steamer Mae, sailing Aug. 21, will do the same."

These vessels will take from 800 to 600 tons of supplies each, and the shipments for them should be marked 'Relief supplies,' and should be properly packed and delivered at the pier of the steamship company referred to, Empire

## RETURNING YOUTH.

"I am seventy years young," said Oliver Wendell Holmes when they asked his age. He was young because his heart was young; his step was firm; his eye was bright; his laugh was clear and merry; his appetite was good, and above all—so was his digestion.

No man should be old before his time because of a weak stomach, sluggish liver, shabby nerves and flabby muscles. There is no need of it. Dr. Pierce's Golden Medical Discovery cures these things. It brings back youth to the feeble because it brings back the appetite and good digestion. It tones the liver, puts oxygen and life into the blood, and solid strength into the flesh and muscles. It contains no alcohol to inebriate or create a morbid appetite or craving for stimulants.

There is nothing in the world for consumption like Dr. Pierce's Pleasant Pellets. They should be taken in conjunction with the 'Discovery,' when every disease is complicated with that dangerous condition. Nothing else that may be offered in their place will accomplish what they will. And their relief is permanent. Write to Dr. Pierce for free advice.

stores, Brooklyn, on or before noon on Wednesday, Aug. 16. Assistant Secretary of War Melkohn has placed bovines animals for immediate consumption and all agricultural machinery on the free list for the island of Porto Rico.

## LETTER FROM DEWEY

Speaks Complimentary of His Reception at Trieste.

Washington, Aug. 15.—The navy department yesterday received the following letter from Admiral Dewey dated at Trieste, Aug. 1:

"Sir—Leaving Trieste today I desire to bring to the attention of the department the uniform courtesy and kindly feeling, shown not only to me, but to the ship and its whole personnel as representing our country, by the officials and people of Trieste and Austria. The Austrian minister of marine arrived from Vienna to welcome us officially and remained several days awaiting us, but was obliged by his duties to return before our arrival. The naval, military and civil officials stationed here have been most cordial.

"The people also have exhibited a most friendly feeling toward our nation, and have visited the ship in large numbers. It is estimated that 40,000 people attended the funeral of Bash, an electrician, who died in the hospital, and they showed many marks of sympathy.

"Naval Constructor Cappe, who visited the dockyard at Pola, was shown every courtesy there and also at the naval and private shipyards of Trieste."

Natural Gas Gusher in Iowa. Muscatine, Ia., Aug. 15.—Natural gas in great quantities has been struck on the farm of Robert Lee, near the city, the vein is 170 feet below the surface.

## SEVERELY PUNISHED

Five Hundred Filipinos Encountered by Americans and Badly Defeated.

Manila, Aug. 15.—8:35 a. m.—A force of United States troops from Quingua, four miles northeast of Malolos, and from Baling, near Bustos, about six miles northwest of Quingua, encountered a body of Filipinos, estimated at about 500, halfway between Bustos and Quingua. In the engagement that ensued the Filipinos were severely punished and scattered. The Americans lost one man killed.

The insurgent force is believed to have been under the command of General Rio Del Pilar, and to have had in view the tearing up of the railway at Bucare and Bignan, about three miles northeast of Bulacan.

A battalion of the Twenty-first infantry will be sent to those points this afternoon to strengthen the railroad guard and to reconnoiter the country in the direction of Norzagaray and on the Bustos road.

General Wheaton, with the troops at Calat, made a reconnaissance on Angeles, about four miles to the northwest, where he found 500 of the enemy. He silenced their fire and then returned to Calat.

## FOUR SHOTS

Mrs. Wiley Fires Them Into Her Husband, Who Illegitimately Her. Chicago, Aug. 15.—Martin J. Wiley, an engineer, was shot by his wife last night in front of their home, and died shortly afterward. Four bullets were fired by the angered woman into the body of her husband, and while he lay dying at her feet she expressed the wish that she had another shot to use on him.

"I hope he will die," said Mrs. Wiley, as she was placed under arrest, after an ambulance had started on a hurried run to the hospital in a vain hope of saving the wounded man's life. Wiley expired just as he was placed on the operating table. The woman's life has been made miserable by the ill-treatment of her husband. He beat her several times yesterday, chased her from the house and was following her up to strike her when she shot him. The first bullet entered his head and, as he lay on the ground, she fired three more shots into his face.

They also agreed to hire detectives to hunt down and arrest dynamiters who have been placing explosives under streets. The business men have pledged a fund of \$10,000 to meet the expense of the crusade against the violators of the law.

## DIDN'T WRITE REED

Dubuque, Aug. 15.—A trusted friend of Colonel Henderson denies the statement in a Washington special to the New York Tribune that Henderson wrote to ex-Speaker Reed on the subject of the speakership committee and other matters and received no reply. He says that to his knowledge Colonel Henderson, though his relations with Reed are still most friendly, has not written to him on this or any other subject since becoming a candidate for speaker.

## THE DREYFUS TRIAL

Audience Engaged in Violent Altercation Over Shooting of M. Labori.

## GENDARMES CALLED IN

To Separate Combatants—M. Cavaignac in Giving His Testimony Appeared to Make an Impression on His Hearers—Dreyfus Apparently Loses Ground.

Reims, Aug. 15.—There was an eager struggle for seats in court yesterday and 640 were seated. There were the usual military honors. Immediately after the prisoner arrived, the president announced that in consequence of applause and other expressions of opinion on Saturday, he had decided that if there was any further interruption the court would be cleared.

During the adjournment of court, in consequence of the announcement of the attempt on the life of M. Labori, the audience engaged in violent altercations over the incident.

M. Mercier, editor of the Gaulois, expressed the opinion that all the newspa-

M. LABORI

pers ought to regard themselves as responsible for the outrage, whereupon M. Cavaignac loudly protested, saying: "No, 'tis you ought to be held responsible for what has happened."

The clamor finally became so violent that gendarmes were forced to separate the combatants and take away the sticks of all those present, but calm was finally restored and the session was resumed.

General Billot's expressions of esteem for Colonel Picquart and M. Scheurer-Kestner in his examination came as a surprise. He only raised his voice when he explained he sent the colonel to Tunis owing to his meddling in matters foreign to his duties, but he insisted in giving Colonel a mission of danger and at the same time entrusted him with a post of honor.

M. Cavaignac gave his testimony in an oratorical manner, with marked intonation and in the way he might have delivered a speech in the chamber of deputies. He maintained his belief in the truth of the confession of Dreyfus and contended that his (M. Cavaignac's) attitude throughout was that of a statesman.

Dreyfus did not create a very favorable impression when at the conclusion of M. Cavaignac's testimony he was asked if he had anything to say. The prisoner replied in a declamatory fashion, with his hand on his heart, that the court of cassation had already disposed of M. Cavaignac's arguments.

The speech of M. Cavaignac, however, certainly appeared to make an impression on his hearers.

During the short suspension of the sitting of the court, M. Jaures, the socialist leader, who was in court, remarked that the arrests made in Paris had for their sole object to forestall a St. Bartholomew massacre of the Dreyfusards and that the attempted murder of M. Labori at Reims was one of the scattered acts of the projected massacre.

The depositions of General Zurlinden, Chanoin and M. Hanoteau were listened to closely, but the session was utterly devoid of any exciting incident, the mass of testimony being directed against Dreyfus, and the lack of trenchant criticism, owing to the absence of the defense's right arm, naturally left an impression unfavorable to the prisoner.

FATES AGAINST HIM

Shooting of Labori a National Calamity to France.

London, Aug. 15.—The correspondent of The Times at Reims, who comments upon the "Prodigious drama being enacted" and the loss to the Dreyfus cause through the disablement of Labori, says:

"There is a terribly suggestive timeliness in the crime. If the fates had been combining against Dreyfus they could not have armed a more efficient agent of their designs than the unknown man who shot Labori just as he was about to riddle with shot and shatter with his invective, irony and scorn the last arguments of the public accuser Mercier. 'It was a master stroke. The one indispensable man was thrown hors de combat just at the moment when most was expected of him. I do not exaggerate the general impression when I affirm that with Labori absent the bottom seems to have dropped out of the defense. The examination of Mercier by M. Demange was one of the weakest exhibitions of forensic ingenuity and

presence of mind which it is possible to conceive. Mercier, Labori and Cavaignac, with the others, held the floor, just as their predecessors in the trial of 1894, while the prisoner was left almost without defense.

"Doubtless M. Demange is a great lawyer, and he may well have been upset by the terrible event, but his formal and antiquated methods stood him in good stead yesterday, and it was yesterday that he met the most dreaded of all the adversaries of Dreyfus.

"Then, to cap all, Mercier called upon M. Labori to proffer his sympathy. The worst news would surprise nobody. For reasons which I am bound not to give, the event is a national calamity."

## REVOLUTIONARY PLOT

Attempt on Labori's Life Said to Have Been Connected With It.

Paris, Aug. 15.—With reference to the report that the attack upon M. Labori covered an attempt to steal documents, it is said that the last anonymous letter he received contained the following words: "We are going to burn your box and your Dreyfus dossier."

The immediate cause of Saturday's arrests was a police discovery of treasonable correspondence in France and Belgium, revealing an intention to call a great meeting of Royalists, Nationalists and anti-Semites to plan measures for the overthrow of the republic.

The idea was to create disturbances that would necessitate calling out the troops, who would have fraternized—so the scheme contemplated—with the conspirators. Then rifles were to be made on the Elysee palace and the government offices. Finally a minister of war named by the duke of Orleans was to have replaced Marquis de Gallifet.

It is impossible to verify these details, but it is believed that matters were on the eve of becoming serious, and that the attempt upon the life of Labori was connected with the plot.

TUESDAY AUGUST 15, 1899.

SEYMOUR extends a hearty welcome to the civil war veterans who are meeting in annual reunion here.

The "Jeffersonian" the new democratic paper at Shelbyville is on our exchange table. It presents a healthful appearance and starts out with a liberal advertising patronage. Its most apparent weakness in the first issue is its 16 to 1 proclivities, but it may outgrow that.

CANDIDATE Overmyer, the North Vernon statesman, erstwhile national banker, came in yesterday evening to talk to some of the boys and let them know that he is "in the fight to the finish." He is said to be going over the district and placing his men whose duty it will be to work up Overmyer organizations and delegations and thus get control of the nominating convention. O, he is mighty smooth since he quit banking and became a statesman.

16 to 1 Arguments.

The Wyoming State Democrat, C. W. Burkart's paper, contains a long communication from W. F. Pfaffenberger of this city. It is a 16 to 1 article and contains some peculiar ideas that Mr. Pfaffenberger, doubtless, would like for his friends here to read. Therefore we reproduce some paragraphs:

"If values are measured by money how can we increase property if money quantity is not correspondingly increased?"

"All profit (increase above expenses) should be stored in equal natural increase of gold and silver and property."

"If the value of property by a large quantity of money were largely increased the rate of taxation could be lowered and thus allow the money lender to reduce the rate of interest."

"The American people ought to have some pride in restoring the value of the silver dollar. It is true they take it and pass it along; but as long as the bondholder refuses to take silver it is not a legal tender. Nor can the government make it a legal tender unless its value is restored equal with gold. This value can only be restored by free coinage, or by redemption or agreeing to redeem all silver with gold."

"We feel positive that had Bryan been elected of this nation it would be ten years ahead of where it is now."

Glorious News.

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctor could give no help; but her cure is complete and her health is excellent. This shows what thousands have proved, that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expel poisons, helps digestion, builds up the strength. Only 50 cents. Sold by W. F. Peters, Druggist, Guaranteed."

Sunday School Convention.

Wednesday and Thursday of next week, August 23d and 24th, the County Sunday school convention will be held at Brownstown and it is our desire to see each school represented by two or more delegates and as many more as can possibly attend. Free entertainment to all attending the convention. Good speakers, both of state and county representation, have been secured and a pleasant and profitable meeting to all who attend. Bring with you your pencil and note book that you may make record of all that is said for the betterment of your school.

Yours Fraternally,

The deceased was the youngest son of Henry Hunsucker, of Seymour. He was born December 4, 1867, died at St. Louis, Aug. 4, 1899, age 31 years and 9 mos. He was a noble, upright young man loved by all who knew him. He leaves a father, one brother and two sisters and many other relatives and friends to mourn his death.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.

Too Well Imitated.

It is no easy matter for a violin maker to rival the famous Stradivarius instruments, but this an American maker did and did so effectually that experts pronounced his violin a genuine Stradivarius.

The successful man was the late George Gemunder, a famous violin maker of New York. His remarkable ability as a preparer of violins was known to many a distinguished player, such as Ole Bull, Remenyi and Wilhelmj. But he made, so runs the story, his greatest success at the Paris exposition of Eiffel tower fame. To that exhibition he sent an imitation Stradivarius, and to test its merits had it placed on exhibition as the genuine article.

A committee of experts carefully examined the instrument and pronounced it a Stradivarius. So far Mr. Gemunder's triumph was complete. But now came a difficulty. When he claimed that it was not an old violin, but a new one made by himself, the committee would not believe him. They declared he never made the instrument and pronounced him an impostor. He had done his work too well.—Youth's Companion.

Didn't Like the Taste.

"When Colonel Richard I. Dodge," says the Kansas City Journal, "was in command of one of the southern Kansas forts many years ago, he was astonished one day to receive a delegation of Indians who complained to him of the quality of the soap issued to them by the government.

"Thinking it would be impossible to make soap too bad for an Indian, Dodge investigated, with the result of finding that the tribe had been eating their soap allowance and didn't like the taste."

Maine's Floating Island.

The town of Liberty has a floating island which is quite a natural curiosity. The island contains about 100 acres. It does not float around for the reason that there is not space for it to do so, but is rises 10 or 12 feet during the freshets of fall and spring and falls back to solid pasture land during the drought of summer. Spruce trees 50 feet tall grow upon it.—Bangor Whig and Courier.

THE QUAINT JAPANESE.  
Peculiarities in Their Methods of Living and Eating.  
Beauty, from a Japanese standpoint, consists in a long, oval face, regular features, almond shaped eyes, sloping slightly upward, a high, narrow forehead and abundance of smooth, black hair. Their movements are graceful, although the style of their dress prevents them walking with ease; their feet and hands are delicately formed and their manners unquestionably charming.  
They take little or no exercise, and one wonders sometimes how the little ladies employ their time—there seems so little to be done in a Japanese house. To begin with, there are no regular meals. The shops near at hand supply daily numberless little dishes, which seem to be eaten at all hours of the day and night—a few pecks at a time—with those impossible little chopsticks. Very little is kept in the larder except some slices of dalkon, fermented turnip, some rice and sweet biscuits.  
"The honorable live fish" is sold by men who carry large water tubs from house to house and cut off as much as is required from the unfortunate fish and replace the sadly mutilated but still struggling remains back in the tub.  
Eggs are cheap and plentiful. Bread is never used, so there is no necessity for an oven.  
The great stand by is tea. A Japanese lady is seldom seen in her home without the quaint little tea tray by her side, and the inevitable pipe, containing one whiff of tobacco, which is in constant requisition.—Cornhill Magazine.

PRETTY CLEVER HORSE.

Never Tied by Its Master Because It Knew So Much.

"You see that little horse over there," said Major Tom Williams, standing on the edge of the sidewalk viewing a small black pony. "That horse has more of the traditional horse sense than his size would show for." He continued, "Watch him."

The major whistled a few times, and the little horse, which was nibbling from a bale of hay on the sidewalk, raised his head and crossed the street. He brought the cart to which he was attached at a standstill just in front of the major.

"You see," said Major Williams, "that horse has an eye for distance. I couldn't have driven him better than that. That horse, too, is a natural scavenger. He will pick up anything he sees on the street, if he wants to eat it. I never hitch him when I get out of the team, and he goes the length of the block picking up banana peelings, eating hay, corn or anything he takes a fancy to. When I want him, I only need to whistle."

At this point a large, white dog brushed against the major with a friendly wag of the tail.

"You never saw that dog kiss the pony, did you? Well, watch him."

Major Williams climbed into his cart, and calling the dog, said, "Kiss him."

Without a moment's hesitation the dog ran to the head of the horse, and jumping several feet off the ground, "kissed" the pony several times.—New York Mail and Express.

Looking For It.

There is a patent lawyer in town who has a number of very bright children, so bright, indeed, that their fun-loving "dad" is invariably forgiven for telling "what my boy said" to the men in his office. Here is the latest:

"I've got a tool chest out at my house that would make a carpenter sick with envy. I've been buying tools for it for 20 years. Of course I never let the youngsters touch it."

"The other day my wife went up stairs and found 'Bookie,' my youngest, 2½ years old, monkeying with that chest. He had the lid up and his head thrust in under it."

"'Bookie,' said my wife, 'what are you looking for?'"

"And the youngster, knowing he had been caught, looked up and with a twinkle in his eye said:

"'Lookin' for twouble.'"—Chicago News.

Weight of Paper Wrappings.

A gentleman of Baltimore who has been a close student of household economics has made a comparison of the weight of paper to the weight of food supplies purchased for a family and in one day's purchases found that the paper wrappings amounted to about 10 per cent of the total. In a list of supplies costing about \$14.8, he found that the paper, according to weight and which was weighed with the provisions, cost him 14¢ cents. This, he claims, is altogether out of just proportion.—Baltimore Sun.

Spanish-American War Panorama  
Is one of the war books which is likely to be in continuous demand. It is a panoramic record of the triumph of Yankee Doodle. The eagle flaps his wings on every page, and "Old Glory" waves around and above every scene. Prominent officers connected with the war are here portrayed, as well as many of the "men behind the guns." Military life is pictured to the eye from recruiting to guard mount and skirmish line. Nor is the ludicrous omitted. The company cook receives the attention due to his importance in the army; the cavalry scenes are given; the hospital arrangements are depicted; the heroines of the Red Cross service are displayed; street scenes in Havana, Santiago and elsewhere are unrolled, the new citizens or subjects (which are they?) of Uncle Sam, appear and disappear as the scenes are turned.

In a word, the gazes visits the new localities and sees the tumultuous new life, without the risk or expense of a sea voyage.

The Album is 5x8 inches, weighs 12 ounces, printed on finest coated paper.

### JOHN HASSENZAHN DEAD.

Remains to be Sent Here from  
Arkansas.

Early this morning a telegram was  
received here from Smithdale, Arkan-  
sas, that John Hassenzahn would die  
before morning and asking what dis-  
position to make of the body. A later  
telegram brought the information that  
he was dead and that the body would  
be started for Seymour, at 7:30 this  
evening. No particulars were sent as  
to the cause of his death.

John Hassenzahn was a lumberman  
and had been operating a sawmill in  
Arkansas about five years. He spent  
several days here recently, having left  
for Smithdale only a week ago taking  
three extra men with him.

His home had been in Seymour for a  
number of years, the family residence  
being on north Ewing street. He was  
an industrious citizen and had a host of  
warm friends in Seymour.

### REUNION OF VETERANS.

The 22nd Indiana and 145th In-  
diana in Annual Session.

Seymour is honored today by the  
presence of quite a number of civil war  
veterans. The annual meetings of the  
22nd Indiana and 145th Indiana are  
being held in this city today and to-  
morrow.

With them are a number of their  
comrades who served in other regiments,  
but who enjoy the meetings neverthe-  
less.

The members of the 22nd are meet-  
ing in the G. A. R. hall, though they  
had expected to meet in Society Hall.  
The attendance is larger than usual and  
the interest manifested by everyone of  
these veterans is intense. They look  
forward to these annual reunions with  
much interest and their enthusiasm  
and patriotism seems to increase, if  
that were possible, as they meet and  
clasp hands and talk over again their  
experience as soldiers or the Union  
from 1861 to 1865.

will be at Armory Hall.

The reunion of the 145th Indiana has  
likewise brought a goodly number of  
the members of that regiment to the  
city. They are holding their meet-  
ings at Armory Hall. The meeting  
this afternoon was right well attended  
and brought back to memory many of  
the experiences they had when sol-  
diering in the South more than a third  
of a century ago.

Tonight they will attend the camp  
fire at Armory Hall which will be a  
joint meeting of the two regimental as-  
sociations. Their first meeting tomor-  
row will be at 10 a. m.
